

2015-16 LuK RepSet Clutch Catalog Now Available

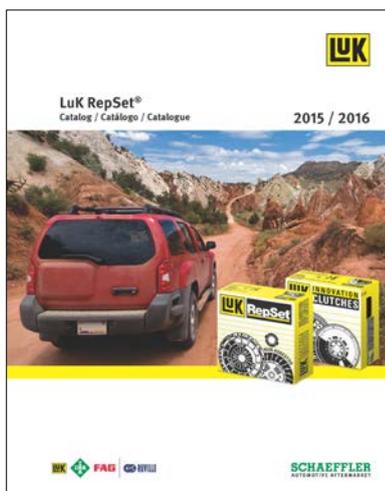

Valley City, OH. September 9, 2015. **Schaeffler Group USA Inc. announces the release of the 2015-16 edition of the LuK RepSet® clutch catalog. Schaeffler is driven by a strong commitment to develop and deliver high quality repair solutions. The LuK automotive aftermarket program represents more than 98% application coverage for the U.S. and Canadian passenger car and light truck vehicle population. LuK offers the highest in-house manufactured content of any supplier in the industry and the program is backed by the industry's best technical support: online, on-call and in print.**

The 2015-16 updated edition of the LuK catalog is a key resource for automotive distributors and service repair professionals. The catalog is clearly organized and intelligently structured to assist distributors and technicians to quickly and easily find the information and parts they need for a complete repair. The 2015-16 edition is the first issue with all content provided in English, French and Spanish.

"We view the catalog as an important tool, not only to build sales and introduce new part numbers, but to reduce unnecessary returns and bay-time by providing information the consumer needs to do the job right. Our tech line is continually monitored to identify helpful application information for inclusion in future catalogs, diagnostic materials, and training curriculums to ensure customer satisfaction," said Tony Williams, product manager for the Schaeffler Group USA.

The catalog includes product information for LuK RepSet clutch sets, conventional and dual mass flywheels, master and slave cylinders, hydraulic clutch release systems, clutch forks and special tools. The catalog also includes a comprehensive list of technical bulletins and current information from LuK on special applications and procedures, including flywheel step and cup dimensions.

Contact your LuK distributor for a copy of the 2015-16 LuK RepSet Catalog or send a request to ***customer.service@schaeffler.com***.

The 2015-16 LuK Catalog now provides all content in English, Spanish and French.

The Schaeffler Group is a leading global integrated automotive and industrial supplier. The company stands for the highest quality, outstanding technology and strong innovative ability. The Schaeffler Group makes a decisive contribution to "mobility for tomorrow" with high-precision components and systems in engine, transmission and chassis applications as well as rolling and plain bearing solutions for a large number of industrial applications. The company generated sales of approximately 12.1 billion Euros in 2014. With around 84,000 employees worldwide, Schaeffler is one of Europe's largest technology companies in family ownership. It has a worldwide network of manufacturing locations, research and development facilities and sales companies at approximately 170 locations in 50 countries.

Schaeffler Automotive Aftermarket, based in Langen, Germany, is responsible for the Group's global automotive replacement parts business for the LuK, INA, FAG and Ruville brands. With a global network of approximately 11,500 distribution partners and 30 sales and representative offices, the company is known for its close proximity to customers and for delivering superior service.
