

Schaeffler's REPERT voted Top 10 Tool for 2016 by readers of *Undercar Digest*

Valley City, OH. 3 June 2016. **Schaeffler's online service portal, REPERT, was recently voted one of the industry's Top 10 Tools by users. In October 2015, *Undercar Digest* encouraged its 35,000 monthly readers to vote for the Top 10 Tools and Top 10 Shop Products through a ballot provided in its magazine. Only manufacturers and distributors were eligible. Each retail shop subscriber submitted one vote for as many as 10 nominations in each of the two categories. The winners were presented at AutoTECH Expo in Covington, KY in early April.**

As REPERT's features continue to evolve, automotive service professionals and facilities continue to benefit from Schaeffler's product know-how. Users have access to a product catalog that updates in real-time, diagnostics and installation guides showcasing videos and illustrations, plus customizable technical training available in person or online. The website is setting a new standard for training and technical information for the auto care industry. With just a few clicks, users can find everything they need to get the job done quickly, efficiently, and correctly the first time, every time.
